Tips and Best Practice *(Tip dan Praktis Terbaik)*

1. Use any modern Internet browser to make registration application via laptop or desktop. Do not use a mobile browser. Ensure pop-up is enabled and document download is allowed.
Gunakan sebarang pelayar Internet moden untuk membuat permohonan pendaftaran melalui komputer riba dan komputer peribadi. Jangan gunakan pelayar Internet mudah alih. Pastikan “pop-up” diaktifkan dan muat turun dokumen dibenarkan..
2. Type your details in CAPITAL LETTERS. Only websites and email can use small letters.
Taip maklumat anda dalam HURUF BESAR. Hanya laman sesawang dan emel yang boleh menggunakan huruf kecil.
3. Ensure your email is correctly typed because it will be used for all communications and notifications.
Pastikan emel anda ditaip dengan betul kerana ianya akan digunakan dalam semua komunikasi dan pemberitahuan.
4. For a registration that is using its own email domain and not free email, using an email that sends to multiple recipients is highly recommended.
Untuk pendaftaran yang menggunakan domain e-mel sendiri dan bukan e-mel percuma, penggunaan satu emel yang menghantar emel kepada beberapa penerima sangatlah digalakkan.
5. Hard-copy submission of supporting documents is not allowed.
Penghantaran dokumen sokongan dalam bentuk salinan “hard-copy” tidak dibenarkan..
